THE STORY OF HUDA LIGHTING

Huda Lighting is a leading lighting solution provider in the MENA and West African regions. With a mission of excellence and a successful journey of over 25 years, our clientele is guaranteed the expertise, quality and extensive array of products and services tailored to their needs.

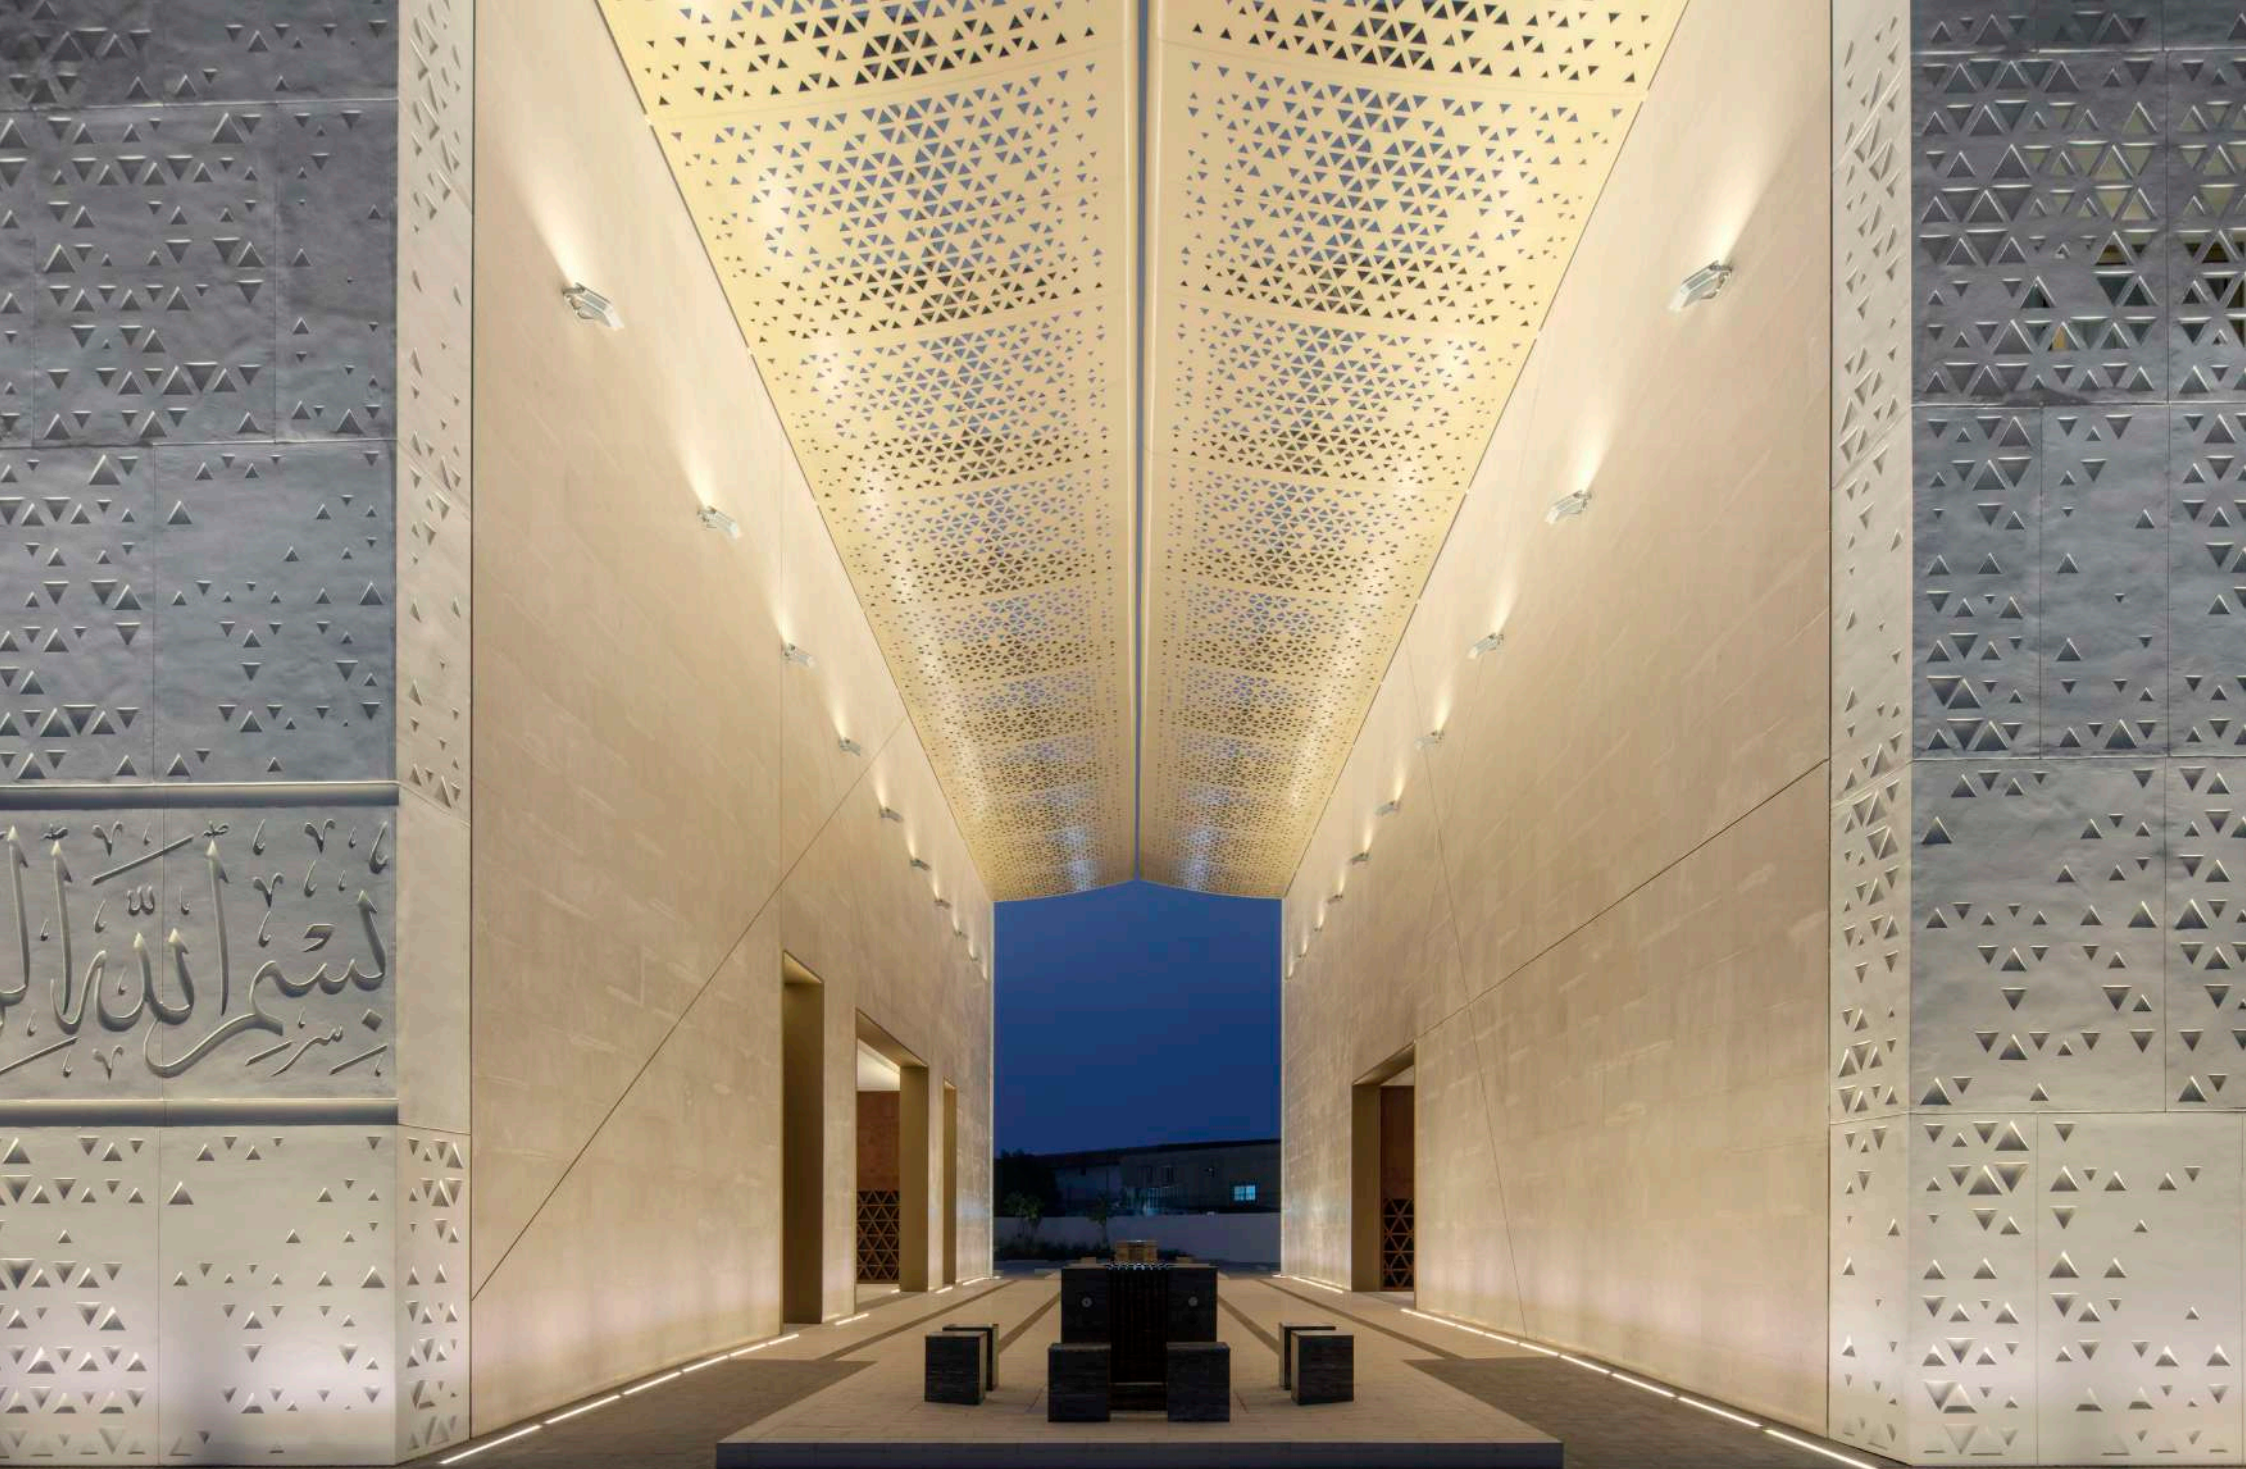

We take pride in our continuously growing list of clients and references from across the hospitality, retail, commercial, residential and industrial sectors.

Over the years, Huda Lighting expanded its range of products and services to include automation and controls, wiring devices and other relevant products to ensure its clients get the best and most comprehensive solutions and support.

Aiming to support the region's growing markets, Huda Lighting expanded its presence to cover more countries and attract the regions' top talent, with over 300 employees across the company's twelve branches and three showrooms, to provide top-notch technology in its offered solutions, working with international designers and leading manufacturers from around the globe.

Huda Lighting continues to strive towards its vision, "To be the lighting solution provider of choice", by launching new branches in major cities and continuously upgrading and diversifying its products, services and know-how.

In 2024, Huda Lighting joined forces with Arrakis Lighting in a joint venture to form the company Arrakis Huda Lighting with its base in Casablanca, Morocco. This collaboration aims to extend the company's reach to MENA and West African regions by leveraging the combined expertise, teams, and know-how of both entities.

THE SHOWROOM BRANDS

AUTOMATION & CONTROLS

AUTOMATION & CONTROLS

Automation & Controls of some sort is becoming more popular, and almost a basic requirement for any residential or commercial project. Recognizing its importance, Huda Lighting partnered with several leading brands in the field to bring the latest automation solutions to its clients.

In almost every one of its branches, Huda Lighting has a team specialized in automation and lighting controls. Huda Lighting is also a KNX partner, with KNX certified engineers in several of its branches, capable of designing and commissioning any KNX system. This allows it to offer support and services to projects from the design stage, all the way to installation and commissioning. Designs proposed are based on client's requirements and the experience of its qualified engineers. Installation is carried out by in-house electricians, or by out-sourced system integrators, to ensure all systems are installed according to standards. In the final stage of commissioning, the aim is to assure that all systems and components are tested, operated and maintained according to the operational requirements of the home owner, and to their full satisfaction.

Huda Lighting has also become a major supplier of Guest Room Management Systems (GRMS) in the region. Its inhouse engineers are fully trained to design, supply, install and commission these systems for hotels of any size, with several systems already supplied over the years to top hotels around the region like the Grand Hyatt in Mecca and the Amman Kempinski Hotel among others.
