

Project Portfolio
Landscape and Façade

The complete lighting solution provider

Building facades and landscape lighting has always enjoyed great attention globally, yet has recently received more interest due to it playing the role of a “first impression” of any particular building or space.

Huda Lighting has had the privilege of contributing to a diverse array of façade and landscape projects throughout the MENA and West African regions, providing an extensive range of products and services, spanning from exceptional turnkey solutions to architectural lighting, as well as advanced automation and lighting control systems.

As the demand for such projects continues to rise, Huda Lighting’s over two decades of experience and commitment to providing innovative and top-quality offerings remains unwavering, making our growing list of satisfied clientele a testament to our expertise.
